Your Directory Should Be Trade-Marked

Contact is the basis of civilization. By our contacts with others our ideas are broadened and generalized. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a product. They help that service or product attain a high degree of perfection. This is the objective performed by the Association of North American Directory Publishers.

Your City Directory Should Be Trade-Marked

Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North America Publishers.

Besides its use to the stockkeeper, it is a convenience the customer looks for. The store that offers an old Directory or no Directory at all, fails to show its patrons a courtesy they will find elsewhere.

Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Ballingham, railroad tracks are the same width in Connecticut and California; shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

Your City Directory Should Be Trade-Marked

Contact is the basis of civilization. By our contacts with others our ideas are broadened and fortified. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directory Publishers.

Your City Directory is Standardized
Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Birmingham, railroad tracks are the same width in Connecticut and California; shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

Your City Directory Should Be Trade-Marked

Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchanging of ideas and ideals, made possible by association contacts, are the greatest factors in the refinement of a service or a product. It is this contact, performed by the use of a high grade directory, that is the basis of civilization.

Every Store should appear in the Directory and the Customer looks for. The store besides its use to the stockkeeper, it is a convenience the customer looks for. The store that offers an old Directory at all, fails to show its patrons a courtesy they will find elsewhere.

Your City Directory is Standardized

Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is used in all cities. In Boston or Bellingham, railroad tracks are the same width in Connecticut and California; the sizes are standard whether made in Brockton or in Japan. In New York or in London, the same is standard. Every Store should appear in the Directory and the Directory should be in Every Store.

Besides its use to the storekeeper, it is a convenience the customer looks for. The store that offers an old Directory, or no Directory at all, fails to show its patrons a courtesy they will find elsewhere.

Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California; shoe sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

Your City Directory Should Be Trade-Marked

Contact is the basis of civilization. By our contacts with others our ideas are broadened and fertilized. The interchange of ideas and ideals, made possible by association contacts, are the greatest factor in the refinement of a service or a product. They help that service or product attain a high degree of perfection. This is the office performed by the Association of North American Directories.

Your City Directory is Standardized

Be it Kalamazoo or Baraboo, information arrangement is uniform. Sixteen gauge wire is identically the same size in Boston or Bellingham, railroad tracks are the same width in Connecticut and California; the same sizes are standard whether made in Brockton or Stockton, and so on, ad infinitum.

Your City Directory Should Be Trade-Marked

Contact is the basis of civilization. By our contacts with others our ideas are broadened. The interchange of ideas and ideals, made possible by association contacts, and fertilized. This is the basis of progress. It is the greatest factor in the refinement of a service or a product. It is the reason why the product attains a high degree of perfection. This is the reason why the product of North American Directory Publishers.
